

Special Issue

Application of Time Series Analysis and Forecasting in Computer Science

Message from the Guest Editors

Time series analysis and forecasting have become increasingly important in recent years due to the rise of electronics, the Internet of Things (IoT), and smart sensor techniques. This Special Issue intends to bring together researchers and practitioners working on methods and techniques for time series analysis and forecasting in various application domains, such as intelligent transportation, geographic information systems, economics, finance, and environmental science. The Special Issue aims to showcase recent advances and applications of time series analysis and forecasting methodologies to real-world problems in these domains. Keywords

- time series analysis
- time series forecasting
- deep learning
- probabilistic forecasting
- forecasting applications
- temporal data modeling

Guest Editors

Dr. Hao Xue

School of Computer Science and Engineering, University of New South Wales, Sydney NSW 2052, Australia

Dr. Du Huynh

Department of Computer Science and Software Engineering, The University of Western Australia, Perth 6009, Australia

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
