

## Special Issue

# Fault Diagnosis and Control Technology of Electric Vehicle

### Message from the Guest Editors

The proposed Special Issue will focus on fault diagnosis and control technology for electric vehicles. We are calling for authors around the world to share their innovative results with other researchers and related industries. Topics of interest include, but are not limited to the following:

- Vehicle dynamics and control for EVs;
- Handling stability control for EVs;
- Lateral stability control for EVs;
- Power system control for EVs;
- Vehicle energy management system control for EVs;
- Battery state monitoring and control of EVs;
- Trajectory planning for automated EVs;
- Coordinate control for connected and automated EVs;
- Braking and energy recovery control of EVs;
- Fault-tolerant control for EVs;
- Fault detection and location in EVs by means of current, flux, vibration, temperature, and other electrical, mechanical, and chemical variables;
- Tools for fault diagnosis: neural networks, fuzzy logic, artificial intelligence, genetic algorithms, expert systems, estimation/identification, observers, data analysis, and signal processing techniques.

### Guest Editors

Prof. Dr. Qinghua Meng

Dr. Longchuan Guo

Dr. Zhenlong Xu

Dr. Ying Yang

### Deadline for manuscript submissions

closed (20 August 2023)

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
