

Special Issue

Emerging Electronic Device Materials

Message from the Guest Editor

Electronic materials are widespread in modern society. This Special Issue will include a large variety of materials and related device technologies, such as nanostructures, conventional semiconductors (Si, Ge, SiGe, GaAs, etc.), wide-bandgap semiconductors (SiC, GaN, Ga₂O₃, ZnO, AlN, diamond, etc.), heterostructures, nanowires, 2D materials and compounds, optical and energy harvesting materials, etc. In addition, the development and application of advanced characterization techniques for electronic materials and devices are also in line with the scope of this SI. The topics of interest include, but are not limited to, the following:

- Dielectric and ferroelectric materials;
- Optoelectronic materials;
- Thermoelectric materials;
- Wide-bandgap semiconductor devices
- Organic semiconductors and their devices;
- Spintronic materials, devices and instrumentation;
- 2D materials and novel devices;
- Organic and perovskite electronic devices.

Guest Editor

Prof. Dr. Mingxing Du

Tianjin Key Laboratory of Control Theory & Applications in Complicated System, Tianjin University of Technology, Tianjin 300384, China

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
