

## Special Issue

# Security and Privacy Issues and Challenges in Big Data Era

### Message from the Guest Editors

Due to the recent proliferation, a large amount of personal data is being collected and processed. The COVID-19 pandemic has also shown that privacy and security are two major bottlenecks when it comes to handling personal data encompassing basic and sensitive information. This Special Issue aims to present recent advances to improve privacy and security by leveraging traditional and AI technologies in the big data era. Topics of interest include, but are not limited to:

- Privacy-preserving big data computing and processing;
- Privacy-preserving data publishing;
- Privacy-preserving data mining;
- Anonymization of big data;
- Differential privacy-based method to secure big data;
- Social network privacy preservation;
- Analytic techniques with privacy guarantees;
- Emerging privacy threats due to the adoption of social networks;
- IoT privacy challenges and innovative solutions;
- Big data privacy and security;
- Cloud computing privacy issues and solutions;
- Encryption techniques to protect the contents of big data, etc.

### Guest Editors

Dr. Abdul Majeed

Department of Computer Engineering, Gachon University, Seongnam 13120, Republic of Korea

Dr. Xiaohan Zhang

School of Law, Zhejiang University City College, Hangzhou 310015, China

### Deadline for manuscript submissions

closed (5 August 2024)

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
