Recent Advances in Intrusion Detection Systems Using Machine Learning

Message from the Guest Editors

Cyber-attacks are not only increasing but are also evolving rapidly to become highly sophisticated, thereby leading to increasing challenges in precisely detecting threats and intrusions, making the development of advanced intrusion detection systems (IDSs) more crucial than ever. Many research ideas targeting IDSs using artificial intelligence (AI) and machine learning (ML) techniques have been proposed. Research may focus on (but is not limited to) the following topics:

- Deep learning for IDSs;
- Federated learning for intrusion detection ;
- Anomaly detection for IDSs;
- Concept drift in IDSs;
- Adaptive learning for IDSs;
- Network-based IDSs using AI/ML;
- Host-based IDSs using AI/ML;
- IDSs using AI/ML for cyber-physical systems;
- IDSs using AI/ML for IoT/IIoT;
- Privacy and trust in IDSs;
- Privacy preservation techniques in IDSs;
- Large-scale distributed intrusion detection.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPIPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
