

Special Issue

Autonomous Vehicles Technological Trends, 2nd Edition

Message from the Guest Editors

The automotive industry has always gone hand in hand with research and innovation; however, currently, the industry is under pressure from the agendas of researchers in the field. Both the hardware and the software exist, and the only question remaining is: “who is going to deliver”? To answer this question, we welcome scientists, researchers, academics, and industry specialists to share their vision of the autonomous vehicle. All these are the hot themes of the current moment, and following the success of Volume I of this Special Issue, in Volume II we continue to assist all those interested in the topic to promote their vision and ideas. Since the automotive field does not belong to a classic scientific field but has become an independent self-made scientific branch, all those who feel that they can bring their contribution to this highly dynamic environment are requested to join in promoting their particular research or reviews in this Special Issue, which is coordinated from both academia and industry.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Physics, Applied) / CiteScore - Q2 (Control and Systems Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the second half of 2024).
