Special Issue

Software Engineering and Machine Learning

Message from the Guest Editor

The purpose of the Special Issue is to be a forum to publish scientific research papers that reflect the current state of the art in the research and practice of the synergy of software engineering and machine learning and to project a vision on the future directions in the subject area. The scope of the Special Issue covers both fields of applying ML to software engineering problems, and software engineering of ML applications. We welcome all original papers that report theoretical research, empirical study, reflection on practical case uses and experiences, evidence based visionary works, and survey and critical review of the current state of the art.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero
Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
