

Special Issue

Artificial Intelligence in Healthcare: Theory, Methods and Applications

Message from the Guest Editors

This Special Issue focuses on the use of AI in diagnosis, rehabilitation, and screening with the goal of demonstrating the cutting-edge applications of these technologies in the healthcare industry. The submissions can include but are not limited to the following topics with a focus on how they apply to healthcare applications:

- Challenges and opportunities of AI in the medical domain;
- Uses of AI in healthcare;
- Precision medicine and AI
- Therapies using AI during the pandemic;
- Wearable technology and AI for healthcare applications;
- Role of big data in medicine;
- AI-based decision support for healthcare applications;
- Computational intelligence and AI in healthcare;
- AI and medical image processing;
- Future of AI in medicine/healthcare;
- Ethical implications of AI in healthcare applications;
- Role of AI in vaccine and drug development;
- AI-enabled secure blockchain for healthcare applications;
- Healthcare data management;
- AI and virtual health assistance;
- Managing electronics health records and AI;
- NLP and AI in the healthcare domain.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
