

Special Issue

Fuzzy Logic and Artificial Intelligence: Emerging Techniques in AI Applications

Message from the Guest Editors

This Special Issue serves as a collection that will bring together all recently developed fuzzy logic and fuzzy-set-based artificial intelligence approaches, and that will encourage further developments in this crucial area. The topics of interest for publication include, but are not limited to:

- Fuzzy modeling;
- Hybrid fuzzy models;
- Fuzzy decision making;
- Fuzzy forecasting;
- Fuzzy control;
- Vagueness and fuzzy logic;
- Fuzzy statistics;
- Fuzzy statistical approaches;
- Fuzzy set theorem's applications;
- Uncertain environments in AI (power systems, geographic information systems, etc.);
- Uncertainty in artificial intelligence of things (AIoT);
- Vague information analysis (e-commerce, human-robot interactions, etc.);
- Kansei engineering (soft computing, cognitive computing, etc.);
- Fuzzy algorithms on neural networks (CNN, ANN, deep learning, genetic algorithms, etc.);
- Fuzzy logic in machine learning (big data analysis, data mining, information retrieval, etc.).

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
