

## Special Issue

# Energy Saving Management Systems: Challenges and Applications

### Message from the Guest Editors

The main aim of this Special Issue is to understand the problems of energy-saving management systems by exploring recent research and field results relating to power system design and analysis, smart grids and micro grids, renewable energy, and power electronics applications for distributed energy resources. Topics of interest include, but are not limited to, the following areas:

- Integration and control schemes of energy-saving management systems;
- Advanced energy storage systems for power systems;
- Artificial intelligence and other novel control applications in energy storage systems;
- Design and analysis of active energy-saving systems;
- Hybrid energy storage systems such as hydrogen and supercapacitor energy storage;
- Power electronic applications for grid-connected distributed energy storage systems;
- Power electronic applications in AC/DC smart and micro grid storage applications;
- New trends and challenges in industrial energy-saving applications.

---

### Guest Editors

Dr. Mustafa Ergin Şahin

Prof. Dr. Djamilia Rekioua

Dr. Alper Nabi Akpolat

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
