

Special Issue

Precision Positioning and Navigation Communication Systems

Message from the Guest Editors

Accurate positioning and navigation systems play a central role in the contemporary technological landscape. Simultaneous advances in communication systems have further enhanced the effectiveness of these systems by enabling the rapid and reliable exchange of positioning information. This synergy between precise navigation and communication systems establishes a robust foundation for the continuous development of innovative solutions, enhancing our ability to navigate accurately in an increasingly complex and interconnected world. This Special Issue is dedicated to a wide range of positioning and navigation techniques. We welcome innovative research articles and review articles with a particular emphasis on the listed topics (among other relevant subjects): Topics:

- Wireless communication systems for indoor positioning;
- Sensor fusion for GNSS-challenged navigation;
- GNSS security: interference, jamming and spoofing;
- IA for positioning;
- Using an in-building positioning system to ensure GNSS service continuity;
- Low-power-consumption positioning system;
- Bioinspired positioning system.

Guest Editors

Dr. Fouzia Boukour Elbahhar

Electronic Waves and Signals Laboratory for Transport (LEOST),
Gustave Eiffel University, 59650 Villeneuve-d'Ascq, France

Dr. Christophe Loyez

Institute of Electronic Microelectronic and Nanotechnology (IEMN),
Université de Lille, CNRS, Université Polytechnique Hauts-de-France,
UMR 8520-IEMN, Lille, France

Deadline for manuscript submissions

closed (15 March 2025)

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
