

Special Issue

Next-Generation Sensing, Computing, and System Engineering for Large-Scale Connected and Automated Vehicle and Transportation: Celebrating the 70th Anniversary of Nanjing University of Aeronautics and Astronautics

Message from the Guest Editors

Nanjing University of Aeronautics and Astronautics (NUAA), established in 1952, enjoys well-balanced development of multiple disciplines in Natural Sciences, Humanities, Social Sciences, Management, etc., with the characteristics of Aeronautics, Astronautics, and Civil Aviation. NUAA is among the first batch of national key universities entitled to award doctoral, master's, and bachelor's degrees. It is one of the 55 universities offering graduate school in China, and it has also been listed as one of the "National Project 211" universities. In 2017, it entered the national "double first-class" construction sequence. The school is now part of the Ministry of Industry and Information Technology. In celebration of the 70th anniversary of the NUAA, this Special Issue is dedicated to next-generation sensing, computing, and system engineering for large-scale connected and automated vehicle and transportation (CAV and CAT). High-quality original technical papers or advanced review papers are welcome.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
