

Special Issue

Advances in Ubiquitous Computing and Human-Computer Interaction

Message from the Guest Editors

This Special Issue, entitled "*Advances in Ubiquitous Computing and Human-Centered Interaction*", aims to collect groundbreaking research, methodologies, and applications in these areas. The scope of this Special Issue includes, but is not limited to, the following topics:

- Human-centered design for ubiquitous and interactive systems;
- Large language models and AI-driven interaction in ubiquitous settings;
- Mobile and wearable sensing for context-aware computing;
- Adaptive and context-aware interaction in pervasive environments;
- Virtual, augmented, and mixed reality applications in ubiquitous computing;
- Privacy, security, and ethical challenges in ubiquitous systems;
- Energy-efficient and sustainable solutions for resource-constrained devices;
- Social computing and collaborative systems in ubiquitous environments;
- Accessibility and inclusive design in ubiquitous computing;
- Human factors and user experience evaluation methods for ubiquitous systems;
- Edge computing for real-time interactive applications.

Guest Editors

Dr. Nan Gao

College of Software, Nankai University, Tianjin 300350, China

Dr. Yu Zhang

School of Computer Science, Northwestern Polytechnical University, Xi'an 710129, China

Deadline for manuscript submissions

15 October 2025

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
