Special Issue

Blockchain Technologies: Emerging Trends and Real-World Applications

Message from the Guest Editors

This Special Issue focuses on recent developments, challenges, and future directions in blockchain technologies, covering both theoretical and practical aspects. It aims to provide a platform for researchers, practitioners, and policymakers to share insights into the latest trends and innovations. Topics of interest include novel blockchain architectures, interoperability solutions, security enhancements, combinations with other technologies like Al or IoT, and real-world applications in various domains. Suggested themes and article types for submissions:

- Blockchain-based security and privacy solutions
- Decentralized Finance (DeFi) and cryptocurrency innovations
- Smart contracts and their applications in various sectors
- Blockchain interoperability and scalability challenges
- Supply chain and logistics applications
- Healthcare and data management solutions using blockchain
- Applications in the energy sector
- Regulatory and legal implications of blockchain technology and tokenomics
- Consensus mechanisms and their evolution
- Blockchain integration with Artificial Intelligence and IoT
- Sustainability and energy efficiency in blockchain networks

Guest Editors

Dr. Tim Weingaertner

Blockchain Lab, Computer Science and Information Technology, Lucerne University of Applied Sciences and Arts, Rotkreuz, Switzerland

Dr. Victoria Lemieux

Blockchain@UBC, Institute of Computing, Information and Cognitive Systems, University of British Columbia (UBC), Vancouver, BC, Canada

Deadline for manuscript submissions

15 May 2026

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
