

## Special Issue

# Advances in Control for Electric Vehicle

### Message from the Guest Editors

Recent trends in automotive engineering point out that the influence of an electric powertrain, especially in the case of individual on-board and in-wheel motors, on electric vehicle dynamics in terms of stability, handling, agility, and comfort should be carefully considered on various development and design stages. On the other hand, on-board and in-wheel motors can not only be used in traditional vehicle dynamics control systems such as ABS or ESC but can also cause emerging new motion control functions through the blended operation of various powertrain and chassis actuators. All these factors should be properly considered in studies on vehicle dynamics and motion control system design for electric vehicles.

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Physics, Applied) / CiteScore - Q1 (Electrical and  
Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.4 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the second half of 2024).
