

## Special Issue

# Artificial Intelligence Applied in Smart Electric Vehicles: Towards Eco-Driving for Improved Energy Economy

### Message from the Guest Editors

To inspire novel AI-based applications in smart EVs towards eco-driving, this Special Issue will seek fantastic solutions among high-quality submissions. The suggested topics include, but are not limited to:

- AI-based control strategies for pure EVs, HEVs, PHEVs, FCVs;
- AI-based multi-scale energy management in EVs, e.g. energy management problems in energy storage systems (battery state estimation, battery degradation prediction), powertrains, and vehicle dynamics;
- AI-based eco-driving assistant systems for pure EVs, HEVs, PHEVs, FCVs;
- AI-based control strategies in automatic driving with target to improve energy economy;
- AI-based vehicle–environment co-operation schemes for eco-driving in pure EVs, HEVs, PHEVs, FCVs;
- AI-based human-vehicle co-operation schemes for eco-driving in pure EVs, HEVs, PHEVs, FCVs;
- AI-based EV fleet control methods for eco-driving.

*Welcome to contribute to our Special Issue.*

### Guest Editors

Dr. Yuanjian Zhang  
Prof. Dr. Guodong Yin  
Dr. Nan Xu

### Deadline for manuscript submissions

closed (31 March 2022)

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
