

# Special Issue

## AI for Embedded Systems

### Message from the Guest Editors

The recent developments in hardware technology have enabled both shallow and deep machine learning algorithms to be hardware implementable on various embedded system frameworks. However, due to their constraints, such as computational capacity or power consumption, to mention a few, their implementation suffers significant drawbacks. The aim of this Special Issue is to encourage researchers to present original and recent developments on shallow and deep machine learning methods that are primarily designed for embedded systems implementation. Topics of interest include, but are not limited to:

- Bio-inspired systems
- Autonomous vehicles
- Autonomous robots
- Precision agriculture
- Health monitoring
- Ambient-assisted living
- Human activity recognition
- Human-machine interaction
- AI in computer networks

---

### Guest Editors

Dr. József Sütő

Prof. Dr. Stefan Oniga

Dr. Alin-Sasa Tisan

Prof. Dr. Fernando Morgado-Dias

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Physics, Applied) / CiteScore - Q2 (Control and  
Systems Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.4 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the second half of 2024).
