

## Special Issue

# Electronic Solutions for Artificial Intelligence Healthcare Volume II

### Message from the Guest Editor

Currently, healthcare and bioelectronics in artificial intelligence are becoming more and more complex and sophisticated faster than ever before. In this SI, we aim to start a discussion about a basic convergent study that would contribute to humanity by respecting human beings and their lives, while aiding and serving neglected or isolated people. It is open to receiving a variety of meaningful and valuable manuscripts concerning the purpose of solving the healthcare issue based on electronic solutions. Subjects are listed below, but not limited to: > Electronic service respecting human beings and their lives; > Electronic solutions to artificial intelligence and Big Data; > Means of aiding and serving neglected people like the disabled or elderly; > Electronic engineering mathematical theories that deeply affect science and industry; > Intelligent media techniques and services for systems engineering; > Intelligent Security/Blockchain techniques and services for improved systems engineering; > A public electronic engineering integration system for the future systems;

### Guest Editor

Dr. Jun-Ho Huh

Department of Data Science, National Korea Maritime and Ocean University, Busan 49112, Republic of Korea

### Deadline for manuscript submissions

closed (31 August 2023)

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
