

Special Issue

AI Applications in IoT and Mobile Wireless Networks

Message from the Guest Editors

Machine-generated data expansion has become a global phenomenon in recent Internet services. The proliferation of mobile communication and smart devices has increased the utilization of machine-generated data significantly. With recent innovative network and chip technology, IoT devices are becoming smarter in terms of high computing power, bandwidth, and storage availability. This Special Issue focuses on the analysis, design, and implementation of AI-powered IoT solutions over mobile networks. Topics of interest include but are not limited to the following:

- On-device machine learning;
- Federated learning;
- Decentralized applications;
- AI for 5G mobile network;
- Real-time computer processing on cognition;
- AI for edge computing;
- Low-power AI for IoT systems;
- Distributed inferencing and learning;
- AI powered security;
- Blockchain for IoT and mobile devices.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
