Special Issue

Advanced Laser Technologies for Biophotonics

Message from the Guest Editors

Recently laser technologies have made a significant impact on biophotonics research and biomedical research, since they provide advanced minimally invasive, cost-effective and rapid techniques for diagnostics, monitoring and treatment of a variety of diseases. Medical devices utilizing minimally invasive laser technology are rapidly finding their way into the mainstream for early disease diagnosis and improved patient acceptance and comfort. This Special Issue in *Electronics* will consider for publication reviews and original papers in all disciplines of lasers and photonics in biology and medicine applications. Entitled "Advanced Laser Technologies for Biophotonics", it will provide a vehicle to help professionals, graduates, engineers, academics, and researchers working in the field of intelligent laser physics, electronics and biophotonics to disseminate information on state-of-the-art techniques.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero
Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
