

## Special Issue

# Cooperative and Control of Dynamic Complex Networks

### Message from the Guest Editors

The aim of this [Special Issue](#) is to focus on the cooperation and control of dynamic complex networks, and to bring together researchers, industry practitioners, and individuals working on critical issues in dynamic complex networks to share their new ideas, latest findings, and state-of-the-art results. Potential topics to be covered by the Issue include, but are not limited to:

- Control algorithm design (e.g., adaptive control, pinning control, and impulsive control);
- Synchronization control of dynamic complex networks;
- Control protocol/controller design;
- Network controllability analysis;
- Network models for cooperation and control;
- Application of artificial intelligence techniques to cooperation and control of dynamic complex networks;
- Community detection for cooperation and control;
- Cooperation and control of complex network survivability;
- Performance evaluation and simulation.

The deadline to submit papers to this special issue is 15 October 2023. However, papers submitted in advance will be peer-reviewed and may be published well before this deadline. We look forward to receiving your contributions.

### Guest Editors

Prof. Dr. Shengming Jiang

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
