

## Special Issue

# Advances in Augmenting Human-Machine Interface

### Message from the Guest Editors

Augmenting human-machine interface (HMI) is an emerging technology that intends to seamlessly enhance human and physical environment interaction through techniques such as brain-computer interface, mixed reality (virtual and augmented reality), and advanced technology adapted machine learning to improve interaction. The main aim of this Special Issue is to seek high-quality submissions that highlight emerging applications and address recent breakthroughs in augmenting human-machine interface such as novel approaches of interaction, machine learning methods utilizing physiological sensors, and real-time HMI systems. The topics of interest include but are not limited to:

- Brain-computer interface for HMI
- Behavior adaption and learning techniques in HM
- Machine learning techniques to enhance and adapt HMI
- HMI in real-world settings
- Application and case studies of augmentation in HMI
- Novel sensors and their application for HMI

---

### Guest Editors

Dr. Avinash Singh

Dr. Xian Tao

Dr. Carlos Tirado Cortes

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
