

Special Issue

Advances in Machine Learning

Message from the Guest Editors

Today, machine learning which aims to teach computers in a bid to make them act like human has become essential. A number of algorithms, techniques, and methodologies have been proposed for a variety of tasks, including autonomous driving, game playing, disease diagnosis and treatment, fraud detection, spam filtering, speech recognition, object detection, search, and recommendation. This Special Issue is seeking high-quality research papers in all areas of machine learning. It is open to well-organized reviews as well as application papers. Topics include but are not limited to the following:

- Deep learning;
- Reinforcement learning;
- Automated machine learning;
- On-device learning;
- Transfer learning;
- Meta learning;
- Application of machine learning in real-world domains.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
