

## Special Issue

# Applied AI-Based Platform Technology and Application

### Message from the Guest Editor

This Special Issue aims to encourage the most recent and advanced research in platform technology and application, with a special focus on their practical applications to science, engineering, industry, medicine, robotics, manufacturing, entertainment, optimization, business, and other fields. We kindly invite researchers and practitioners to contribute their high-quality original research or review articles on these topics to this Special Issue. Topics appropriate for this Special Issue include but are not necessarily limited to:

- Machine-learning-based platform technology and application;
- Clustering and classification of industrial data processing;
- Industrial AI-based applications for platform technology and application;
- AI security, trust, assurance, and resilience;
- Digital forensics for platform technology and application;
- Multimedia and distributed systems for platform technology;
- Smart home and M2M network for platform technology;
- Scientific and big data visualization platform;
- Business management and intelligence;
- Security and privacy issues in emerging platforms.

### Guest Editor

Prof. Dr. Taeshik Shon

Department of Software and Computer Engineering, Ajou University,  
Suwon 16499, Republic of Korea

### Deadline for manuscript submissions

closed (30 June 2022)

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
