

## Special Issue

# Audio Signal Processing: Analysis and Applications

### Message from the Guest Editor

Audio signal processing plays an important role in consumer electronics, broadcasting, telecommunications, multimedia communications, and entertainment systems. This Special Issue will provide a venue for audio signal processing engineers and scientists to publish valuable papers on audio analysis and applications. Technology for audio-like signals such as medical signals (EEG, ECG, etc.) and speech signals are welcome for publication. This Special Issue mainly focuses on the emerging applications related to big data analysis, machine and deep learning, forensics, steganography, and so on. We invite papers addressing, but not limited to, the following topics:

- Audio and speech analytics;
- Audio and speech annotation;
- Audio and speech classification;
- Audio and speech clustering;
- Audio and speech compression;
- Audio and speech emotion recognition;
- Audio and speech forensics;
- Audio and speech recognition;
- Audio and speech segmentation;
- Audio and speech tagging;
- Audio and speech watermarking;
- Machine learning for audio signal processing;
- Reversible data hiding for audio and speech;
- Steganography for audio and speech;

---

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
