Special Issue

Application of Big Data Mining and Analysis

Message from the Guest Editors

This Special Issue aims to showcase cutting-edge research and innovations in the field of big data analytics. It will serve as a pivotal platform for researchers and practitioners to explore the vast potential of big data technologies in various domains such as online social networks, social computing, healthcare, finance, telecommunications, and more. The focus will be on novel methodologies, data processing techniques, and the practical implications of data mining and analysis to address complex problems and enhance decision-making processes. We welcome contributions that cover advanced algorithms, machine learning models, and system optimizations that improve the efficiency and accuracy of big data analysis. This Special Issue will also consider papers that discuss the ethical, privacy, and security challenges associated with big data practices. By bringing together a diverse range of studies, this Special Issue aims to foster a deeper understanding of how big data can be effectively exploited to drive innovation and transform data into actionable insights.

Guest Editors

Dr. Xiangguo Sun

Department of Systems Engineering and Engineering Management, The Chinese University of Hong Kong, Shatin, Hong Kong 999077, China

Dr. Yu Yang

Department of Computing, Hong Kong Polytechnic University, Hong Kong 100872, China

Deadline for manuscript submissions

15 November 2025

Electronics

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero
Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
