Special Issue

Emerging Trends in Blockchain-Based Solutions, Decentralized Environments, Trust and Security

Message from the Guest Editors

This Special Issue aims to explore the latest developments in blockchain technology, decentralized environments, and their impact on trust, security, and information management. The topics covered in this Special Issue include, but are not limited to:

- Merging trends in decentralized ledger technologies;
- Edge-to-cloud computing to support blockchain;
- Blockchain-based trustworthy computing environments;
- Trustworthy data governance with blockchain;
- Digital identities with blockchain;
- Resource management for blockchain;
- Blockchain-based service management;
- System model design for blockchain.

We kindly invite you to submit your latest, high-quality research results for publication in this Special Issue.
