

Special Issue

State-of-the-Art Technologies for Connected and Automated Vehicles

Message from the Guest Editors

This Special Issue is focused on state-of-the-art technologies for CAVs. It will include decision making, trajectory planning, and motion control for single CAVs or CAV platoons. Attention will also be paid to the related technologies in any other aspects. The topics of interest include but are not limited to the following:

- Environmental perception;
- Behavior prediction of surrounding vehicles;
- Lane change or turning decision of CAVs;
- Trajectory planning of CAVs;
- Eco-driving of CAVs;
- Vehicle modeling and state estimation;
- Vehicle dynamics control;
- Advanced driver assistance systems;
- Platoon control.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Physics, Applied) / CiteScore - Q2 (Control and
Systems Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.4 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the second half of 2024).
