

Special Issue

Advances in Cybersecurity, Data Privacy, Robotics, and Cloud and Service Computing

Message from the Guest Editors

In today's digitally driven world, the intersections of cybersecurity, data privacy, robotics, and cloud and service computing have emerged as pillars of technological advancement and societal progress. The exponential growth of interconnected systems, the proliferation of sensitive data, the rapid evolution of robotic technologies, and the widespread adoption of cloud-based services have collectively heightened the need for innovative research and solutions in these domains. This Special Issue aims to explore the latest breakthroughs, challenges, and synergies across these critical fields, fostering cross-disciplinary dialogue to address the complex demands of modern technology ecosystems. Potential topics include, but are not limited to, the following:

- Advanced intrusion detection and adaptive cybersecurity frameworks
- Privacy-enhancing technologies for big data, AI, and robotic systems
- Secure communication, computing, and control in robotics and IoT systems
- Trustworthy cloud architectures and secure data management
- AI/ML applications in cybersecurity, privacy, and robotic control
- Blockchain for security in cloud and robotic systems
- ...

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
