

## Special Issue

# Wireless Charging for Electric Vehicles

### Message from the Guest Editors

The objective of this Special Issue is to publish the most recent theoretical and practical research results of wireless power transfer applied to the charge of electric vehicles, preferably with a focus on the latest standard SAE-2954. The topics of interest include, but are not limited to, the following technical areas:

- Wireless power transfer topologies for charging electric vehicles (inductive, capacitive, etc.).
- Design of magnetic coupling stages for wireless power transfer.
- Control design of wireless power transfer systems applied to the charge of electric vehicles.
- Resonant topologies, resonant converters, and power electronics.
- Modeling and simulation of in-motion wireless charging for electric vehicles, or OLEV (on line electric vehicles).
- Modeling, analysis, and simulation of bidirectional wireless power transfer systems applied to the vehicle-to-grid (V2G) concept.
- Vehicle alignment systems for wireless chargers.

Welcome to contribute!

---

### Guest Editors

Prof. Dr. Pedro Roncero-Sanchez

Electrical and Electronic Engineering and Control Systems, University of Castilla-La Mancha, Ciudad Real, 13071 Ciudad Real, Spain

Dr. Javier Vázquez

Research Lab of Industrial Electronics and Power Quality, Universidad de Castilla-La Mancha, 13001 Ciudad Real, Spain

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
