Recent Advances in the Control of Complex Systems

Message from the Guest Editor

This Special Issue is devoted to current trends in the control of complex systems, including, but not limited to, the following topics.

- control
- complex systems
- networks
- groups of vehicles
- production systems
- electrical networks
- ecological systems
- neural networks

Welcome to contribute.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.
