

Special Issue

Cybersecurity in Information Systems and Technology

Message from the Guest Editors

Proposals for this Special Issue on "Cybersecurity in Information Systems and Technology" are requested to represent an overview of the current status of this research field, and extended versions of the best papers of the Jornadas Nacionales de Investigación en Ciberseguridad (JNIC) LIVE cybersecurity conference (<https://2021.jnic.es>) are also invited to publish in this Special Issue. This Special Issue covers a variety of topics including, but not limited to, new standards, frameworks, methods, algorithms, solutions, and applications in the following areas:

- Prevention, detection, and response;
- Attack and Cybercrime Detection;
- Security Event Monitoring;
- Attacks and Vulnerabilities;
- Forensic Analysis;
- Cryptology, Cryptocurrencies, and Blockchain;
- Mobile Device Security;
- Cloud Computing Security;
- IoT Security;
- Industrial and Critical Infrastructure Security;
- Dataset and Big Data Security;
- Privacy and Access Control;
- Information Systems and Software Security;
- Risk Assessment and Security Management;
- 5G Network Security;
- Training and Educational Innovation

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.
