Selected Papers from XXXVIII Conference on Design of Circuits and Integrated Systems—DCIS 2023

Message from the Guest Editors

The XXXVIII Conference on Design of Circuits and Integrated Systems (DCIS 2023) aims to provide a platform for researchers in the highly active fields of micro- and nano-electronic circuits and integrated systems. It will provide an excellent forum to present and discuss works on the emerging challenges offered by technology in the areas of modelling, design, implementation and the testing of devices, circuits and systems. Authors of accepted papers are invited to submit the extended versions (at least 50% extension for the submissions) of their original papers and contributions. The topics of interest include, but are not limited to, the following:

- Analog/mixed-signal circuits and systems;
- Design of power-, thermal- and variability-aware circuits and systems;
- New computing and hardware paradigms;
- Circuits and systems in advanced and emerging technologies;
- Embedded and high-performance computing;
- EDA tools and methods;
- Industrial and power electronics;
- Test, fault tolerance, reliability and modelling;
- Radiofrequency ICs;
- On-chip and off-chip interconnects;
- Hardware security;

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
