

Special Issue

Innovative Designs in Human–Computer Interaction

Message from the Guest Editor

This Special Issue invites submissions of original research papers and reviews that showcase combined applications, methodologies, and advancements in the fields of human–computer interaction, the brain–computer interface, and natural language processing. We welcome submissions on, but not limited to, the following topics:

- human–computer interaction (HCI)
- human–computer interface
- human–computer design (HCD)
- child–computer interaction (CCI)
- user experience (UX)
- user-centered design (UCD)
- natural language processing (NLP)
- value-sensitive design (VSD)
- user interface (UI)
- artificial intelligence (AI)
- brain–computer interface (BCI)
- XR/games
- contextual design

I look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.
