

Special Issue

Dependable Internet of Things and Detection

Message from the Guest Editor

This Special Issue will include studies for finding the reliable implementation of the Internet of Things and for finding anomalies from the data collected by sensors of things.

- Dependable IoT networks,
- Sustainable IoT systems,
- Machine learning, including deep learning, for detecting anomalies,
- Signal processing for detecting anomalies, and
- Radars for detecting anomalies.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.
