

## Special Issue

# Deep Learning for Facial Emotion Analysis and Human Activity Recognition

### Message from the Guest Editors

This Special Issue aims to explore the advancements and applications of deep learning in facial emotion analysis and human activity recognition, with a focus on their significance in the domains of health, interaction, and security. The scope of this Special Issue includes, but is not limited to, the following topics:

- Deep learning for facial expression recognition;
- Deep learning for facial pain assessment;
- Deep learning-based depression detection;
- Driver fatigue detection using facial emotion analysis;
- Multi-modal fusion for enhanced facial emotion analysis;
- Real-time facial emotion analysis for interactive systems;
- Transfer learning and domain adaptation for facial emotion analysis;
- Facial emotion analysis in virtual reality and augmented reality environments;
- Explainable deep learning models for facial emotion analysis;
- Deep learning for human action recognition;
- Spatiotemporal action localization;
- Action quality assessment;
- Emotion generation.

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
