

## Special Issue

# Power Scheduling System for Electric Vehicles and Unmanned Aerial Vehicles

### Message from the Guest Editors

The collection scope encompasses various topics related to power scheduling for EVs and UAVs. Key areas of interest include:

- Advanced algorithms and models for dynamic power scheduling;
- Integration of EVs and UAVs with smart grids and renewable energy sources;
- Charging schemes and infrastructures for EVs and UAVs;
- Energy storage solutions and their optimization;
- Impact of power scheduling on battery life and performance;
- Real-time data analytics and machine learning applications in power management;
- Security and resilience measures for power scheduling systems;
- Case studies and practical implementations of power scheduling systems;
- Regulatory and policy considerations for the deployment of power scheduling systems;
- Interoperability standards and frameworks for EVs and UAVs

---

### Guest Editors

Dr. Liuwang Kang

Dr. Shiwei Xu

Dr. Yalong Wu

Dr. Shuo Zhang

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
