

## Special Issue

# Error-Control Coding Algorithms and Architectures for Modern Applications

### Message from the Guest Editors

The development of algorithms and architectures for error-control coding (ECC) has been a rapidly growing field for several decades now, allowing the design of reliable data storage systems, data centers, and communication networks. Although great improvements have been achieved by the community with capacity-approaching codes and efficient implementations of gigabit decoders, more challenging requirements and constraints come with the release of new standards, the scaling of manufacturing processes, the appearance of new memory technologies, and the quantum-computing revolution. This Special Issue on “Error-Control Coding Algorithms and Architectures for Modern Applications” aims to include different implementation solutions and design of algorithms and error-correction codes, provided that such solutions suppose a significant scientific contribution in the field.

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.8 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in  
the first half of 2025).
