

## Special Issue

# Emerging Electronics Technologies and Solutions for Eco-Friendly Cities

### Message from the Guest Editors

The development of eco-friendly cities includes the development and application of new efficient solutions and technologies such as efficient transport management, emission control and pollution control, energy efficiency and usage of renewable energy, resource efficiency, etc., and would ensure a better quality of life of the growing population. This Special Issue aims to present high-quality research and recent advances of technologies towards eco-friendly cities. You are invited to submit original papers on topics including but not limited to the following:

- Traffic congestion systems;
- Transportation efficiency;
- Waste management;
- Water supply;
- Energy efficiency;
- Sensors and their networks;
- Internet of Things approaches for eco-friendly cities;
- Assistance systems;
- Connected and autonomous driving;
- Emission and pollution control;
- Noise pollution control;
- Electric vehicles and bicycles sharing;
- Pedestrian safety;
- Eco-friendly cities inter-relationship with smart homes.

---

### Guest Editors

Prof. Dr. Darius Andriukaitis  
Dr. Yongjun Pan  
Prof. Dr. Peter Brida

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

---

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di  
Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.4 days after  
submission; acceptance to publication is undertaken in 2.6  
days (median values for papers published in this journal in  
the second half of 2025).
