Emerging Control Systems of Electric Vehicle

Message from the Guest Editor

Electric vehicles are advancing rapidly, with their underlying technologies undergoing significant transformation. The electrification and increasing intelligence of automobiles have garnered significant attention from both academia and industry. The control of key systems—including drive, suspension, steering, and braking—plays a critical role in overall vehicle performance. Optimizing these control systems is essential for ensuring safety, ride comfort, handling stability, and other performance metrics. Accordingly, the development of innovative control system architectures, advanced control strategies, and algorithm optimization, among other aspects, has become a central focus of current research.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
