

Special Issue

Advances in Fault Detection/Diagnosis of Electrical Power Devices

Message from the Guest Editors

Reliability-oriented fault detection and fault-tolerant control are state-of-the-art research trends that demand further intensive research in order to obtain applicable cost-effective technology. This motivates the aim of this Special Issue of *Electronics*. Accordingly, I cordially invite researchers to contribute original and unique articles, as well as review papers. The topics of interest include (with emphasis on electrical power devices), but are not limited to:

- condition monitoring
- cyber-attack detection
- cyber-physical systems
- data-driven approaches including machine learning methods
- electrical power devices
- fault detection and diagnosis
- fault ride through
- fault-tolerant control
- incipient faults
- observer design
- signal-based approaches for features extraction

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
