

Special Issue

Advanced Application of FPGA in Embedded Systems

Message from the Guest Editors

This Special Issue entitled “Advanced Application of FPGA in Embedded Systems” is intended to present the latest advances in applications benefiting from new FPGA architectures and features and to illustrate the wide range of applications where FPGAs can offer a competitive, if not the best, design option. Topics of interest include but are not limited to:

- Novel architectures to exploit field-programmable technology;
- Use of FPGAs as embedded hardware accelerators;
- New approaches for energy efficiency on reconfigurable computing;
- Advances in hardware/software co-design for system-on-chip FPGAs;
- Applications of field-programmable technology, including accelerators for machine learning, real-time systems, cryptography, machine vision, sensor arrays, biomedical or embedded applications in general, among others.

Guest Editors

Dr. Bruno Da Silva

ETRO Engineering ICT & Electronics LAB, Vrije Universiteit Brussel,
1050 Brussels, Belgium

Dr. Jo Vliegen

imec-COSIC/ES&S, ESAT, KU Leuven, Belgium

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
