

Special Issue

Applications Enabled by FPGA-Based Technology

Message from the Guest Editors

In recent years, FPGA technologies have evolved in the form of tools, design methodologies, and FPGA architectural features. These technologies have enabled or boosted novel application domains. This Special Issue aims to present these application domains and how recent advances in FPGA technologies have made it possible. Topics of interest include but are not limited to:

- Application of models, methods, tools, and architectures for reconfigurable computing;
- Applied self-adapting or evolvable systems;
- Compilation, simulation, debugging, synthesis, verification, and test of reconfigurable systems;
- FPGA-based applications including (but not limited to):
 - Cryptography;
 - Security;
 - Astronomy;
 - Signal and image processing;
 - Communications;
 - Biomedical applications;
 - Embedded systems;
 - Automation;
 - Intelligent systems;
 - Scientific computing;
 - Industrial applications;
 - Data compression;
 - Robotics;

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
