

Special Issue

Feature Papers in Computer Science & Engineering

Message from the Guest Editors

We are pleased to announce that the Section Computer Science and Engineering is compiling a collection of papers submitted by our Section's Editorial Board members and leading scholars in this field of research. We welcome contributions as well as recommendations from Editorial Board members. The aim of this Special Issue is to publish a set of papers that characterize the best original articles, including in-depth reviews of the state of the art and original and very up-to-date contributions involving the use of intelligent models and/or the IoT in sectors of interest. Anything that brings innovative elements and is related to Deeptech is welcome. We hope that these articles will be widely read and have a great influence on the field. All articles in this Special Issue will be compiled in a print edition book after the deadline and will be appropriately promoted. Topics of interest are all those involving advanced intelligent models and their applications in areas such as:

- IoT and its applications
- Industry 4.0
- Smart cities
- Biotechnology
- Precision agriculture
- Fintech
- Quantum economy
- Blockchain
- Cybersecurity
- Big data analytics and artificial intelligence

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
