

Special Issue

Feature Papers in Microelectronics

Message from the Guest Editors

Analog, digital, mixed, radio frequency (RF), resonant, radiation-tolerant, low-power, in vivo and other integrated electronic topics are now expanding in the microelectronics market due to increasing global demand. This Special Issue is dedicated to publishing original research (cutting-edge) reviews for the applications of microelectronics in emerging, frontier and challenging technologies. Electronics operating in extreme environments, such as vacuums, space, harsh radiation, extreme cold and other niche applications, are today pushing microelectronic design beyond the frontier of standard electronics. Furthermore, as there is an expanding environment of software tools to facilitate microelectronic design, and to cope with large circuits composed of many hierarchical blocks, vendor IPs, multiclock trees, various physical interfaces of I/O and other specific blocks, the simulation environment is becoming increasingly strategic for integrated circuit (IC) submissions.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
