

Special Issue

Feature Papers in Systems & Control Engineering

Message from the Guest Editors

The purpose of this Special Issue is to publish a set of papers that characterize the best insightful and influential original articles or reviews, with our section's EBMs discussing key topics in the field. We expect these papers to be widely read and highly influential within the field. Interesting topics include, but are not limited to, the following:

- Robotics and artificial intelligence;
- Intelligent and autonomous systems;
- Automated vehicles and intelligent transport systems;
- Smart mechatronic systems;
- Renewable energy systems and smart grids;
- Data-driven modeling and control;
- Cyber-physical systems and network security;
- Distributed networked control systems;
- Complex systems (non-linear, hybrid, switched, uncertain, etc.);
- Monitoring and diagnosis;
- Fault-tolerant control (reconfiguration);
- Human-in-the-loop control;
- Interaction Human & Cyber-Physical System;
- Industrial electronics;
- Advanced manufacturing systems.

The deadline to submit papers to this special issue is 31 December 2022. However, papers submitted in advance will be peer-reviewed and may be published well before this deadline. For more details, please visit [here](#).

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
