

## Special Issue

# Trends in Information Systems and Security

### Message from the Guest Editor

We invite researchers, practitioners, and industry experts to submit their original research and innovative solutions for this Special Issue titled "Trends in Information Systems and Security". This Special Issue aims to innovative research in the field of information systems and security. This Special Issue seeks to explore the latest advancements, emerging challenges, and opportunities within the dynamic field of information systems and security. Potential topics include but are not limited to the following research areas in information systems and security:

- Artificial intelligence;
- Machine learning;
- Blockchain;
- Internet of Things;
- Cloud computing;
- Big data analytics.

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /  
SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /  
CiteScore - Q1 (Electrical and Electronic Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.4 days after  
submission; acceptance to publication is undertaken in 2.4  
days (median values for papers published in this journal in
