

## Special Issue

# Trustworthy Artificial Intelligence in Cyber-Physical Systems

### Message from the Guest Editors

Artificial intelligence (AI) is very important for autonomous systems and applications interacting physical and cyber worlds with information and communication technology in our daily life.

This Special Issue on “Trustworthy Artificial Intelligence in Cyber-Physical Systems” aims to cover key concepts, architectural approaches, methodology and technical solutions, including policy, regulatory, and ethics issues for trustworthy AI in intelligent and advanced cyber-physical systems, taking into account emerging technologies, such as digital twin, metaverse, and web 3.0.

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.
