Novel Sensor-Based Interfaces and Their Applications

Message from the Guest Editors

The objective of this Special Issue is to invite original research articles and reviews on various research areas, such as:

- Innovative sensor interfaces for augmented and virtual reality;
- Sensor interface technologies for the metaverse and immersive environments;
- Advances in sensor interfaces for the Internet of Things;
- Challenges and opportunities in brain-computer interfaces and electromyography sensors.

The scope of this Special Issue is not limited to these topics and welcomes contributions from related research areas. We look forward to receiving your **contributions**.

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.
