

Special Issue

Advances in Signals and Systems Research

Message from the Guest Editors

Aims and scopes: Prospective authors are encouraged to submit previously unpublished contributions within, but not limited to, the following areas:

- Signal Processing: This track welcomes research related to signal processing techniques, algorithms, and applications in various domains.
- Control Systems: Contributions on control systems theory, design, and applications, including robotics and automation.
- Cyberphysical Systems: Manuscripts exploring the integration of physical systems with computational elements and network connectivity.
- Communications and Future Networking: Research on communication technologies, protocols, and the future of networking.
- Cybersecurity: Papers addressing security challenges in signals and systems, including encryption, privacy, and threat detection.
- Machine Learning and AI: Contributions in the areas of machine learning and artificial intelligence applied to signals and systems research.
- Signals and Systems for Sustainability: Research on how signals and systems contribute to sustainable practices and environmental conservation

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di
Torino, 10129 Torino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPus /
SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Electrical and Electronic) /
CiteScore - Q1 (Electrical and Electronic Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 16.8 days after
submission; acceptance to publication is undertaken in 2.4
days (median values for papers published in this journal in
the first half of 2025).
